

CENSUS

UNITED STATES FOREIGN TRADE

SUMMARY REPORT  
FT 950-I

MARCH 1961

FOR RELEASE  
May 15, 1961

IMPORT TRADE BY COUNTRY

The Bureau of the Census, Department of Commerce, announced today that the rise in total United States general imports (unadjusted for seasonal variation) from \$1,045.9 million in February to \$1,230.5 million in March<sup>1</sup> reflected increases in imports from all areas as follows: Canada, from \$197.8 to \$249.2 million; Western Europe, from \$295.2 to \$337.0 million; Latin American Republics, from \$282.3 to \$295.1 million; and "all other countries," from \$270.6 to \$349.1 million.

The Bureau also stated that from February to March, imports from sterling area countries rose from \$166.8 to \$211.0 million and those from O.E.E.C. countries from \$288.9 to \$329.6 million. Increases were reported in imports from all continents.

Imports from North America climbed from \$322.6 million in February to \$388.7 million in March largely due to a substantial increase in imports from Canada, as noted above, and to lesser increases in imports from other countries of this continent as follows: Netherlands Antilles, from \$23.4 to \$28.6 million; Mexico, from \$49.5 to \$53.4 million; and Nicaragua, from \$2.4 to \$6.0 million. The rise in imports from

Asia from \$167.8 to \$215.7 million was the result of increases in imports from Japan, from \$61.7 to \$82.5 million; Republic of the Philippines, from \$22.6 to \$31.1 million; Kuwait, from \$8.5 to \$15.2 million; and India, from \$17.6 to \$22.3 million. Imports from Europe rose from \$299.3 to \$343.7 million reflecting, in part, higher levels of imports from individual countries of this continent as follows: United Kingdom, from \$63.5 to \$75.2 million; West Germany, from \$66.0 to \$75.6 million; Belgium and Luxembourg, from \$23.0 to \$28.7 million; France, from \$26.7 to \$32.2 million; Greece, from \$2.0 to \$6.4 million; Italy, from \$24.9 to \$28.4 million; and Norway, from \$3.2 to \$6.5 million. However, a noticeable decrease occurred in imports from Turkey, from \$14.6 to \$4.3 million.

From February to March, imports from Australia and Oceania advanced from \$13.6 to \$28.2 million reflecting increases in imports from New Zealand, from \$4.0 to \$13.3 million and Australia, from \$9.5 to \$14.2 million. The increase in imports from Africa from \$43.5 to \$52.6 million was the result of increases in imports from Ethiopia, from \$2.2 to \$6.0 million and British East Africa, from \$3.1 to \$6.3 million. Imports from South America increased slightly from \$199.1 to \$201.6 million reflecting counterbalancing changes in imports from individual countries of this continent as follows: Colombia, from \$20.1 to \$25.8 million; Brazil, from \$42.1 to \$47.8 million; Peru, from \$13.7 to \$18.2 million; Venezuela, from \$90.4 to \$79.0 million; and Chile, from \$15.0 to \$11.9 million.

<sup>1</sup>On a seasonally-adjusted basis, total general imports were valued at \$1,127.1 million in March as compared to \$1,121.6 million in February. (See the March 1961 issue of Report No. FT 900-I.) Seasonally-adjusted data are not available by country of origin.

EXPLANATION OF STATISTICS

**COVERAGE:** Import statistics include merchandise imported by government agencies as well as by private importers, but exclude American goods returned by the United States armed forces for their own use. United States trade with Puerto Rico and United States possessions is not included in this report but the import trade of Puerto Rico with foreign countries is included as a part of the United States import trade. Merchandise shipped in transit through the United States between foreign countries is not included in import statistics.

**COUNTRY DEFINITION:** Though the country which should be reported in the statistics as the country of origin is defined as the country where the merchandise was grown, mined or manufactured, the country actually shown in the statistics may in an number of cases represent some other country, such as the country of purchase, lading or the country in which mixed lots of various origin are consolidated. It follows, therefore, that imports from such merchandising or transshipment countries are likely to be overstated and imports from other countries correspondingly understated.

**VALUATION:** Import values are, in general, based on market price or selling price, and are, in general, f.o.b. the exporting country. They exclude United States import duties. None of the values have been adjusted for changes in price level.

**EFFECT OF SAMPLING:** Formal entry shipments valued less than \$100 and informal entry shipments valued \$250 or less (less than one percent of total import value) are estimated by sampling. The estimated values are included in the area, continent, and country totals in the table. The variability in the import figures due to sampling is no more than three percent or less than \$50,000. For further information regarding the sampling procedures, see the "Explanation of the Sampling Procedure for Estimating Low Valued Imports" in the foreword of Report No. FT 110. The largest variation from rounding of figures is \$50,000.

Further information regarding coverage, country definition, valuation, etc., is contained in the "General Explanation" in foreword of Report No. FT 110. For complete statement, see the foreword in Foreign Commerce and Navigation of the United States.

## UNITED STATES GENERAL IMPORTS, BY COUNTRY OF ORIGIN: MARCH 1961 AND SELECTED PERIODS

(In millions of dollars. N.e.c. indicates not elsewhere classified. General imports are a total of imports for immediate consumption plus entries into bonded warehouses. Figures for 1961 are as originally issued and have not been revised to include published corrections. Figures for 1960 include revisions published with the December 1960 reports, or earlier, but do not include revisions published during 1961. See "Explanation of Statistics" for information on sampling procedures and effect there-of on the data shown.)
